Recent Employment History

5/05-Present Next Step Design Solutions

(307) 797-2765

Web Developer

Develop websites in HTML, PHP, and flash, and build static or database driven dynamic webs sites. I have been with Next Step for over 18 months and am currently expanding my graphical domain to include stationery, logos, print, magazine layout etc.

5/01-10/05 Casper College - Academic Computing

(307) 268-2778

Computer Network Technician

Fixed an array of hardware and software problems ranging from printers, network switches, and computers. Trained faculty, staff, and students in needed technology skills. Learned to work independently, unsupervised, or in a team setting. I use almost all of my skills developed during this job in my current, demanding job.

10/00-5/01 Casper College - Administrative Computing (307) 268-2442

Network Support Specialist

Trained to troubleshoot hardware, software, and network problems. This job was the beginning of my technology career.
